## SURGE PROTECTOR REMOTE PANEL INDICATORS

TRANSTECH has developed two models of remote panel mount Indicators to allow users to display the status of a Surge Protector remotely on the front of the panel. The range has two types "Intelligent DSI" for use with Transtech TLP and "PSI" for any protector with relay output.

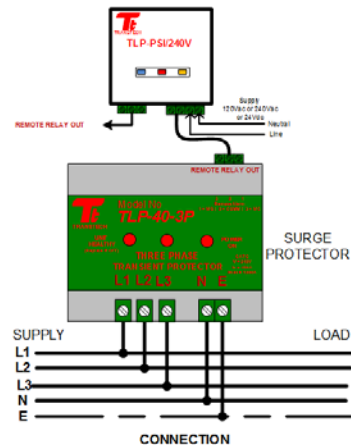

### Model: TLP-DSI

For use exclusively with Transtech TLP Protectors with I output

### Model: TLP-PSI

For use with Transtech TLP Protectors and any with a relay output
