

## QUALITY POLICY STATEMENT

TransTech Electronic Controls Pty. Ltd. is committed to providing quality in product, service and repair to its client from initial inquiry through to final delivery.

Quality Assurance is seen as being the most fundamental part of the TransTech Electronic Controls Pty. Ltd. aims and objectives along with safe working environments and market competitiveness.

The management of TransTech Electronic Controls Pty Ltd is committed to providing quality, both product and service, to its clients needs and expectations and is fully committed to meeting contractual and statutory obligations for quality and reliability in providing solutions, application engineering, sales and service in the form of electrical motor drives & protection, electronic sensors, electronic modules and complete process control and telemetry systems.

To ensure that the required level of quality is achieved the TransTech Electronic Controls Pty. Ltd. operates a Quality System complying with the requirements of **AS/NZS ISO 9002:2000.**

This Quality System comprises procedures, method statements and Quality Plans which have been developed to eliminate error, waste and frustration, thus ensuring quality of all processes.

Quality is achieved by:

- a) Training and motivation;
- b) Adherence to documented procedures;
- c) Investigation of nonconformity and implementation of effective corrective action;
- d) Quality system improvement.

All TransTech Electronic Controls Pty. Ltd. personnel are encouraged to take an active role in ongoing Quality System improvement.

The management of TransTech Electronic Controls Pty. Ltd. is committed in providing quality in both product and service to its clients and in providing all resources necessary to achieve these objectives, this in turn will give our customers an assurance of quality and our employees the benefits of job satisfaction.

**Barrie P. King**  
Managing Director
